

Garbage Disposal Buying Guide

1/3 HORSEPOWER GARBAGE DISPOSALS

There are several things to consider when the time comes to replace an old garbage disposal, such as noise level and grinding components.

It is important to understand the needs of your customer to ensure you're offering the ideal solution.

MOEN®

GX PRO SERIES GARBAGE DISPOSAL

- Universal Xpress Mount™ fits Moen® and most existing 3-bolt mounting assemblies
- High-speed 1,900 RPM VORTEX™ permanent magnet motor reduces jamming
- Compact design
- Continuous-feed technology with galvanized steel grinding components

143030	BADGER 1 W/CORD	WITH POWER CORD

1/3 HORSEPOWER GARBAGE DISPOSALS

The lowest available horsepower (HP) for garbage disposals is 1/3 HP, making these models a great economical option for 1- and 2-person apartments or homes. Their lower HP makes them best suited for only grinding vegetables and other soft foods.

BUILDER GARBAGE DISPOSAL

- Torque Master® balanced grinding system • Removable splash guard • CE-, ULC- and UL-listed

*APARTMENT PACK DISPOSALS DO NOT COME WITH A LOCKING SINK COLLAR

1/2 HORSEPOWER GARBAGE DISPOSALS

The minimum HP recommended for typical in-home use is 1/2 HP. Garbage disposals with this horsepower are ideal for grinding general food items in 1- to 2-person households or areas where kitchen usage is minimal.

Although their small design allows them to easily fit in tight spaces, they can have a higher noise level. When choosing a garbage disposal with 1/2 HP, offer your customers units with stainless steel grinding components for longer life.

GARBAGE DISPOSAL

- Torque Master balanced grinding system • Removable splash guard

- Simple snap tool quickly secures mounting assembly
- Easy-open dishwasher inlet; no additional tools required
- Universal Xpress Mount fits Moen and most existing 3-bolt mounting assemblies
- High-speed 2,600 RPM VORTEX permanent magnet motor designed to reduce jamming
- Compact design
- Continuous-feed technology with galvanized stainless steel grinding components

ITEM NO.	MODEL NO.	DESC.
3559141	GX50C	WITH POWER CORD

***STEP UP** UNITS COME WITH MORE FEATURES AND BENEFITS THAN STANDARD 1/2 HP DISPOSALS

3/4 HORSEPOWER GARBAGE DISPOSALS

Garbage disposals with 3/4 HP are ideal for moderate to heavy kitchen usage in 4-person households. They come equipped with better noise-reducing technology, and their high HP prevents them from easily becoming jammed.

Keep in mind that these disposals are a little bigger than those with 1/2 HP. However if your customer has the space, these garbage disposals will not disappoint.

DELUXE GARBAGE DISPOSAL

GARRISON GARBAGE DISPOSAL

- Torque Master balanced grinding system
- Removable splash guard
- ULC-, UL-listed

ITEM NO.	MODEL NO.	DESC.
3580497	10-US-GR97-3B	WITH POWER CORD

Garbage disposals with at least 1 HP can grind chicken bones, coffee grounds and much more. Most of these models are top of the line and come equipped with better noise-reducing technology, allowing them to grind more quietly. They work well in 5- to 8-person households and small businesses with moderate to heavy kitchen usage.

Their grinding chambers are larger, so there is more room for food. As with 3/4 HP models, these disposals will not disappoint if your customer has the space.
